

Assistive Technology Program

What is Assistive Technology (AT)?

AT is any device, software, equipment, tool, or toy that enables children and adults with disabilities to do more with less help. This includes:

- Activities of Daily Living
- Sensory Processing
- Low Vision / Hearing
- Communication
- Play
- Computer Access
- School and Work
- Switches
- Mounting Equipment

Program Goals

- Ensuring all people have equal access to valued and meaningful activities
- The AT Program provides:
 - Access to the AT lending library
 - Consultation, training, and resources for long-term access to AT and communication support

Eligibility

This program is open to all individuals with disabilities, as well as their families/caregivers

How to Enroll

Talk to your ODMF case manager or use the below contact information to learn more and gain access to AT.
